

# JUNHO LEE

◇ <https://twjhlee.github.io> ◇ [twjhlee@snu.ac.kr](mailto:twjhlee@snu.ac.kr)

## RESEARCH EXPERIENCE

---

**Seoul National University**  
Postdoc Researcher

*2025 - current*

## EDUCATION

---

**Seoul National University**  
Ph.D. Electrical and Computer Engineering  
Advised by Prof. Young Min Kim

*2020 - 2025*

**Seoul National University**  
B.S. Electrical and Computer Engineering

*2017 - 2020*

## RESEARCH INTERESTS

---

- Vision-based Reliable Robotic Manipulation
- Transparent objects
- Clutter
- 3D Vision

## PUBLICATIONS

---

**NFL: Normal Field Learning for 6-DoF Grasping of Transparent Objects**  
**Junho Lee**, Sangmin Kim, Yonghyeon Lee, Young Min Kim  
*IEEE Robotics and Automation Letters (RA-L)*, 2023.

**MasKGrasp: Mask-based Grasping for Scenes with Multiple General Real-world Objects**  
**Junho Lee**, Junhwa Hur, Inwoo Hwang, Young Min Kim  
*IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)*, 2022.

**Gatsbi: Generative agent-centric spatio-temporal object interaction**  
Cheoulhui Min, Jinseok Bae, **Junho Lee**, Young Min Kim  
*IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR)*, 2021 (Oral).

## PATENTS

---

10-2596914: Environment-aware color measurement method, apparatus, and computer-readable medium (2023)

## **AWARDS & HONORS**

---

- Tutor Award by SNU College of Engineering 2021

## **PROJECTS**

---

- PhD Thesis: Toward Reliable Vision-Based Robotic Grasping in Transparency and Clutter(2025).
- Bachelor Thesis: Using demonstrations from VR integrated robot control systems to alleviate sparse reward setting for RL(2020).

## TEACHING EXPERIENCES

---

- |                                                                          |           |
|--------------------------------------------------------------------------|-----------|
| - TA, Linear Algebra for Electrical Systems<br>Instructor: Young Min Kim | Fall 2021 |
| - TA, Linear Algebra for Electrical Systems<br>Instructor: Young Min Kim | Fall 2022 |

## IT SKILLS

---

- Programming Languages: Python, C++, MATLAB, LaTeX
- Libraries: PyTorch, Numpy, Nvidia IsaacSim, Blender, cvxpy
- Platforms: Linux, Mac OS, Windows
- Hardware: Panda Franka Emika, HTC Vive, Realsense
- Server: System administrator for GPU server(72 GPUs)

## LANGUAGES

---

- Korean (native)
- English (native)
